

Profile of GMAT™ Testing 2021

Profile of GMAT™ Testing: Residence

Five-Year Summary, TY2017 - TY2021

February 2022

Globally, more than 1 million Graduate Management Admission Test™ (GMAT™) exams have been taken over the past five years by individuals interested in pursuing graduate management education. The GMAT exam is an important part of the admissions process for more than 7,300 graduate management programs worldwide. A total of 156,453 GMAT exams were taken by prospective business school students around the world in testing year 2021 (TY2021), which ran from July 1, 2020 through June 30, 2021. In addition, GMAT examinees sent a total of 301,107 score reports to graduate-level management programs across the globe.

This report summarizes five-year global GMAT testing trends for:

- GMAT exams taken by residence,
- GMAT exams taken by gender,
- Mean age of GMAT examinees,
- Mean GMAT Total Score, and
- GMAT score-sending breakdowns by program type (MBA, business master's, and doctoral/other), for TY2021.

Mean GMAT Total Scores and mean age of examinees are provided for groups with five or more exams taken and 10 or more score reports sent.

What Can I Do With the Data?

Use the data to build candidate profiles for specific country and regional groups. For example, using the tables you can determine the following about residents of Japan who sat for the GMAT exam in TY2021:

- Residents of Japan sat for 1,673 GMAT exams.
- The mean age of Japanese test takers was 29.7 and the mean GMAT Total Score was 587.
- Of the 2,552 GMAT score reports sent by residents of Japan, 15 percent were directed to business master's programs.
- Men in Japan (87% of scores sent) were more likely than women in Japan (75%) to send scores to MBA programs.
- Residents of Japan represent 4 percent of GMAT test taking by East and Southeast Asian residents and 1 percent of global testing.

Make this report your starting point to target your search of potential students and enhance your recruitment efforts. For example, you can purchase names of prospective students using the **GMASST™** database or develop profiles of candidates based on data in the **mba.com Prospective Students Survey Interactive Report**.

About This Report

This Data Brief summarizes five years of data for GMAT exams taken and score reports sent worldwide, filtered by residence at time of GMAT registration.

Review GMAT exam and score reporting trends by:

- [Region of Residence](#)
- [Country/Territory of Residence](#)

About GMAT Examinees

Data in the tables reflect the total number of GMAT exams that generated valid Total Scores during a given testing year. Test takers who took the exam more than once during the year are included in the aggregate data. For example, an individual who took the GMAT exam twice in TY2021 would represent a total of two exams taken during that year.

* In April 2020, GMAC introduced the GMAT™ Online exam, which is an online and remote proctored version of the test-center-based GMAT™ exam. Candidate testing and score sending information originating from both test center and online versions of the GMAT™ exam is provided in this table. These columns indicate what percentage of the total GMAT™ exams taken corresponded to the GMAT™ Online exam, as well as the mean age and total score of candidates taking the GMAT™ Online exam.

* In April 2020, GMAC introduced the GMAT™ Online exam, which is an online and remote proctored version of the test-center-based GMAT™ exam. Candidate testing and score sending information originating from both test center and online versions of the GMAT™ exam is provided in this table. These columns indicate what percentage of the total GMAT™ exams taken corresponded to the GMAT™ Online exam, as well as the mean age and total score of candidates taking the GMAT™ Online exam.

Note: Dashes that appear in the table are used to indicate "not applicable", such as when there are no examinees in a given subgroup, and thus, no scores exist. For examinee privacy, dashes are also used in place of mean age and mean Total Scores when there are fewer than five exams taken or fewer than 10 score reports sent by any given candidate group.

About the GMAT Exam

The GMAT exam consists of four sections: Verbal, Quantitative, Analytical Writing, and Integrated Reasoning. GMAT Total Scores, as presented in this report, are calculated based on performance on the Verbal and Quantitative sections of the exam. Total Scores are reported in increments of 10, on a scale ranging from 200 to 800. Results are valid for a five-year period from test sitting.

Notes About the Data

GMAT Score Cancel Policy

In late June 2014, GMAC instituted a policy offering test takers the ability to preview their GMAT section scores before deciding to accept or cancel the exam results. No score reports are distributed to schools when exam results are canceled. Candidates may reinstate their scores at a later date if they choose, however.

Although the ability to cancel exam results is not new, candidates in the past were unable to see their section scores before making the cancel decision. The proportion of exams canceled following the policy change increased from around one percent a year to more than 20 percent. Ultimately, the majority of test takers who cancel their exam results go on to retake the GMAT and generate reportable scores.

GMAC publishes annual GMAT trends to monitor global interest and mobility in high-quality graduate management education worldwide. Because candidates who cancel their score continue to represent recruitment opportunities for business programs around the world, GMAC will now include canceled exam volume in its candidate reports. This reporting change allows comparisons to be made more accurately across time for the number of exams taken by any given student group. Care should be taken when comparing score—sending figures from TY2015 onward with previous years, however, as fewer score reports overall are now being sent as candidates' score cancel behavior has changed.

Gender Classifications

Beginning in testing year 2016, individuals who registered to take the GMAT exam had the option of checking a gender category called “Other” when entering their background information and setting up an account on mba.com. These exams are reflected in both the total exam and total score—sending counts in the region and country tables but are not broken out in separate gender categories within the tables.

GMAT Program Code Classifications

Program data in this report are based on a business school's current GMAT code classifications for its respective programs. In any given GMAT testing year, school representatives have the opportunity to modify their program classifications if they differ from original classifications established at the time of GMAT program code assignment. As a result, historic GMAT score—sending data may change based on such program classification changes.

Testing Year Data Preparation Process Updated in TY2018

In TY2018, GMAC implemented a new process for preparing annual testing year data files due to structural changes in the data collected from GMAT exam registration. To standardize historic data into this new structure, testing year data was regenerated from TY2008 through TY2021 in the new format.

GMAT exam data now includes exams with a status of either score-reportable or score-cancelled for all testing years starting in TY2008 through the current reporting year. The new GMAT score—sending data is indexed by candidates' score report request date, meaning that a testing year in the dataset represents all GMAT score reports that were requested to be sent to global business school programs within that testing year, regardless of when candidates sat for the GMAT exam associated with those scores. Due to the changes in data preparation, exam and score—sending volumes in GMAT reports published after 2018 will be inconsistent with historic reports.

GMAT™ Online Exam

In April 2020, GMAC introduced the GMAT™ Online Exam, which is an online and remote proctored version of the test-center-based GMAT™ exam. Candidate exam-taking and score-sending information originating from both test center and online versions of the GMAT™ exam has been incorporated into this report for TY2020 onward.

For further questions on the methodologies used in this report please contact the GMAC Research and Data Science Department at research@gmac.com.

Related Admissions Recruiting Resources

Looking for more students? The **GMASS™** database can help you find the best talent to recruit for your programs. As a GMAT score recipient, you have access to the GMASS global database of prospective candidates interested in graduate management education—over 500,000 candidates who are waiting to hear from you. The benefits of using the GMASS service:

- **Target your audience:** Use more than 30 criteria to narrow your search and tailor your message for the best response rate.
- **Get the most up-to-date contacts:** The global GMASS database is updated daily.
- **Find the best candidates anytime, anywhere** with our easy-to-use web-based application.
- **Save time:** Receive automatic results daily, weekly, or monthly, and save your best searches.
- **Recruit early:** Target GMAT pre-test candidates early in their decision-making process.
- **Save money:** GMASS subscription is a cost-effective way to build multichannel marketing programs.

To get more information or to start a GMASS subscription, please visit [gmac.com/gmass](https://www.gmac.com/gmass).
