Profile of GMAT™ Testing 2024

Graduate Management Admission Council™

Profile of GMAT™ Testing: Citizenship

Five-Year Summary, TY2020 - TY2024

October 2024

Throughout the past five testing years, over 675 thousand Graduate Management Admission Test™ (GMAT™) exams have been taken, globally, by individuals interested in pursuing graduate management education. The GMAT exam is an important part of the admissions process for more than 8,000 graduate management programs worldwide. A total of 115,286 GMAT exams were taken by prospective business school students around the world in testing year 2024 (TY2024), which ran from July 1, 2023 through June 30, 2024. In addition, GMAT examinees sent a total of 189,671 score reports to graduate-level management programs across the globe.

This report summarizes five-year global GMAT testing trends for:

- GMAT exams taken by citizenship and gender,
- Mean age of GMAT examinees and mean GMAT Total Score,
- Percentile of mean GMAT Total Score, and
- GMAT score-sending breakdowns by program type (MBA, business master's, and doctoral/other), for TY2024.

Mean GMAT Total Scores and mean age of examinees are provided for groups with five or more exams taken and 10 or more score reports sent.

In this report, GMAT (10th Ed.) refers to the version used between June 2012 and February 2024. GMAT Exam refers to the version started in November 2023, initially named GMAT Focus™, later referred to as the GMAT Exam. This report reports data separately for the two versions of GMAT exams.

What Can I Do With the Data?

Use the data to build candidate profiles for specific country and regional groups. For example, using the tables you can find the following about French citizens who sat for the GMAT exam in TY2024:

- In total, French citizens sat for 2,343 GMAT exams and scored, on average, 586 on the GMAT (10th Ed.) and 545 on the GMAT Exam.
- Over 80% of the 3,199 GMAT score reports sent by French citizens were directed to business master's programs.

- Among French citizens who took the GMAT Exam, men (19%) were more likely than women (8%) to send scores to MBA programs.
- French citizens represent 17 percent of GMAT test taking by citizens of Western Europe, and 2.0 percent of global testing.

> **About This Report**
>
> This Data Brief summarizes five years of data for GMAT exams taken and score reports sent worldwide, filtered by citizenship at time of GMAT testing.
>
> Review GMAT exam and score reporting trends by:
>
> - **Region of Citizenship**
> - **Country/Territory of Citizenship**
>
> **About GMAT Examinees**
>
> Data in the tables reflect the total number of GMAT exams that generated valid Total Scores during a given testing year. Test takers who took the exam more than once during the year are included in the aggregate data. For example, an individual who took the GMAT exam twice in TY2024 would represent a total of two exams taken during that year.

Make this report your starting point to target your search of potential students and enhance your recruitment efforts. For example, you can purchase names of prospective students using the **GMAC™ GradSelect** database or develop profiles of candidates based on data in the **GMAC Prospective Students Survey Interactive Report**.

* In November 2023, GMAC introduced a new version of the GMAT™ Exam, which was initially named GMAT Focus™, and later just referred to as the GMAT Exam. In this table, "GMAT" refers to this latest version of the GMAT Exam, and "10th Edition" refers to the version used between June 2012 and February 2024. Prior to TY2024, all data is for the 10th Edition GMAT Exam, but data is given for both the 10th Edition Exam and the GMAT Exam for TY2024. These columns contain data from the current GMAT Exam only, and volumes must be combined with data from the 10th Edition GMAT Exam to get the full volumes. Additionally, the scoring scale for the 10th Edition Exam and GMAT Exam are different. Please check the score concordance table on gmac.com to interpret scores from each version. The link to that table will be provided in the "Notes About the Data" section at the end of this report.

Note: Dashes that appear in the table are used to indicate "not applicable." For examinee privacy, dashes are also used in place of mean age, mean Total Scores, percentiles of mean Total Score, and percentages when there are fewer than five exams taken or fewer than 10 score reports sent by any given candidate group.

* In November 2023, GMAC introduced a new version of the GMAT™ Exam, which was initially named GMAT Focus™, and later just referred to as the GMAT Exam. In this table, "GMAT" refers to this latest version of the GMAT Exam, and "10th Edition" refers to the version used between June 2012 and February 2024. Prior to TY2024, all data is for the 10th Edition GMAT Exam, but data is given for both the 10th Edition Exam and the GMAT Exam for TY2024. These columns contain data from the current GMAT Exam only, and volumes must be combined with data from the 10th Edition GMAT Exam to get the full volumes. Additionally, the scoring scale for the 10th Edition Exam and GMAT Exam are different. Please check the score concordance table on gmac.com to interpret scores from each version. The link to that table will be provided in the "Notes About the Data" section at the end of this report.

Note: Dashes that appear in the table are used to indicate "not applicable." For examinee privacy, dashes are also used in place of mean age, mean Total Scores, percentiles of mean Total Score, and percentages when there are fewer than five exams taken or fewer than 10 score reports sent by any given candidate group.

About the GMAT Exam

In November 2023, GMAC introduced the newest edition of the GMAT™ Exam, which was referred to as to as the GMAT Focus™ exam until July 2024. Both the GMAT exam (10th edition) and the GMAT Exam (current edition) were offered between November 2023 and February 2024, and the 10th edition officially stopped being offered in February 2024.

The current GMAT Exam consists of three sections: Quantitative Reasoning, Verbal Reasoning, and Data Insights. GMAT Total Scores, as presented in this report, are calculated based on performance on all three sections of the exam. GMAT Total Scores are reported in increments of 10, on a scale ranging from 205 to 805. Results are valid for a five-year period from test sitting.

The GMAT Exam (10th Edition) consisted of four sections: Verbal, Quantitative, Analytical Writing, and Integrated Reasoning. GMAT (10th Edition) Total Scores, as presented in this report, are calculated based on performance on the Verbal and Quantitative sections of the exam. GMAT (10th Edition) Total Scores are reported in increments of 10, on a scale ranging from 200 to 800.

IMPORTANT: Comparing your current GMAT score directly to your score on the GMAT Exam (10th Edition) is not an accurate comparison. Learn more at **Understanding Your Score**.

Notes About the Data

GMAT Score Cancel Policy

In late June 2014, GMAC instituted a policy offering test takers the ability to preview their GMAT section scores before deciding to accept or cancel the exam results. No score reports are distributed to schools when exam results are canceled. Candidates may reinstate their scores at a later date if they choose, however.

Although the ability to cancel exam results is not new, candidates in the past were unable to see their section scores before making the cancel decision. The proportion of exams canceled following the policy change increased from around one percent a year to more than 20 percent. Ultimately, the majority of test takers who cancel their exam results go on to retake the GMAT and generate reportable scores.

GMAC publishes annual GMAT trends to monitor global interest and mobility in high-quality graduate management education worldwide. Because candidates who cancel their score continue to represent recruitment opportunities for business programs around the world, GMAC will now include canceled exam volume in its candidate reports. This reporting change allows comparisons to be made more accurately across time for the number of exams taken by any given student group. Care should be taken when comparing score-sending figures from TY2015 onward with previous years, however, as fewer score reports overall are now being sent as candidates' score cancel behavior has changed.

Gender Classifications

Beginning in testing year 2016, individuals who registered to take the GMAT exam had the option of checking a gender category called "Other" when entering their background information and setting up an account on mba.com. These exams are reflected in both the total exam and total score-sending counts in the region and country tables but are not broken out in separate gender categories within the tables.

GMAT Program Code Classifications

Program data in this report are based on a business school's current GMAT code classifications for its respective programs. In any given GMAT testing year, school representatives have the opportunity to modify their program classifications if they differ from original classifications established at the time of GMAT program code assignment. As a result, historic GMAT score-sending data may change based on such program classification changes.

Testing Year Data Preparation Process Updated in TY2018

In TY2018, GMAC implemented a new process for preparing annual testing year data files due to structural changes in the data collected from GMAT exam registration. To standardize historic data into this new structure, testing year data was regenerated from TY2008 through TY2019 in the new format.

GMAT exam data now includes exams with a status of either score-reportable or score-cancelled for all testing years starting in TY2008 through the current reporting year. The new GMAT score-sending data is indexed by candidates' score report sent date, meaning that a testing year in the dataset represents all GMAT score reports that were sent to global business school programs within that testing year, regardless of when candidates sat for the GMAT exam associated with those scores. Due to the changes in data preparation, exam and score-sending volumes in GMAT reports published after 2018 will be inconsistent with historic reports.

GMAT™ Online Exam

In April 2020, GMAC introduced the GMAT™ Online Exam, which is an online and remote proctored version of the test-center-based GMAT™ exam. Candidate exam-taking and score-sending information originating from both test center and online versions of the GMAT™ exam has been incorporated into this report for TY2020 onward.

Variations in Data

The GMAT exam data in GMAC's internal data warehouse may vary slightly depending on when the data was exported. This may result in slight variation between the test year exam counts published in this current report and those published in past years' reports.

Candidate Citizenship Data

GMAT exams taken and scores sent by candidates for whom GMAC does not have citizenship data for are included in the Worldwide totals of GMAT exams taken and GMAT scores sent, but not in the regional or country-level totals. This may result in the Worldwide totals not being equal to the sum of the regional or country-level totals.

Percentile Calculations

The percentiles in this report are based on the score concordance table in July 2024. The percentiles were calculated by rounding the average score down to the nearest 10—ending in 0 for the GMAT Exam (10th Edition) or 5 for the GMAT Exam. This rounded score is then equated to the lowest percentile associated with that score on the score concordance table.

For further questions on the methodologies used in this report please contact the GMAC Research and Data Science Department at research@gmac.com.

Related Admissions Recruiting Resources

Looking for students to meet your recruitment goals? The **GMAC™ GradSelect** global database can help you find the best talent to recruit for your programs. As a GMAT score recipient, you have access to GradSelect, the world's largest pool of qualified prospective candidates specifically interested in graduate management education—over 560,000 candidates who are waiting to hear from you. The benefits of using the GradSelect service:

- Target your audience: Use more than 35 criteria to narrow your search and tailor your message for the best response rate.
- Get the most up-to-date contacts: The global database is updated daily, with 45K candidates joining every quarter.
- Find the best candidates anytime, anywhere with our easy-to-use web-based application.
- Save time: Receive automatic results weekly, biweekly, or monthly, and save your best searches.
- Recruit early: Discover candidates at all stages of their business education journey, using the segmentation tools to personalize and convert.
- Save money: By only paying for the profiles you need, GradSelect is a cost-effective way to build multichannel marketing programs.
